### Gate Measurements

Height \_\_\_\_\_ mm, x Width \_\_\_\_\_ mm x Quantity \_\_\_\_\_

Height \_\_\_\_\_ mm, x Width \_\_\_\_\_ mm x Quantity \_\_\_\_\_

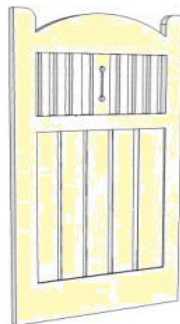

Height \_\_\_\_\_ mm, x Width \_\_\_\_\_ mm x Quantity \_\_\_\_\_

### How to measure your gates!

Height: Measure both sides, add them together and divide by 2 then deduct 40mm for clearance.

Width: Deduct from the total opening, 16mm for single gates, or 24mm for double gates.

Mid-rail: *OPTIONAL* Top of mid-rail to ground less 40mm.

Height of gate is measured to top of stile

Pickets 42mm spaced at 30 - 40mm

Decorative motif cut out of 90mm picket

Top of midrail is 4/7th of overall height

Bottom panel made from T&G board

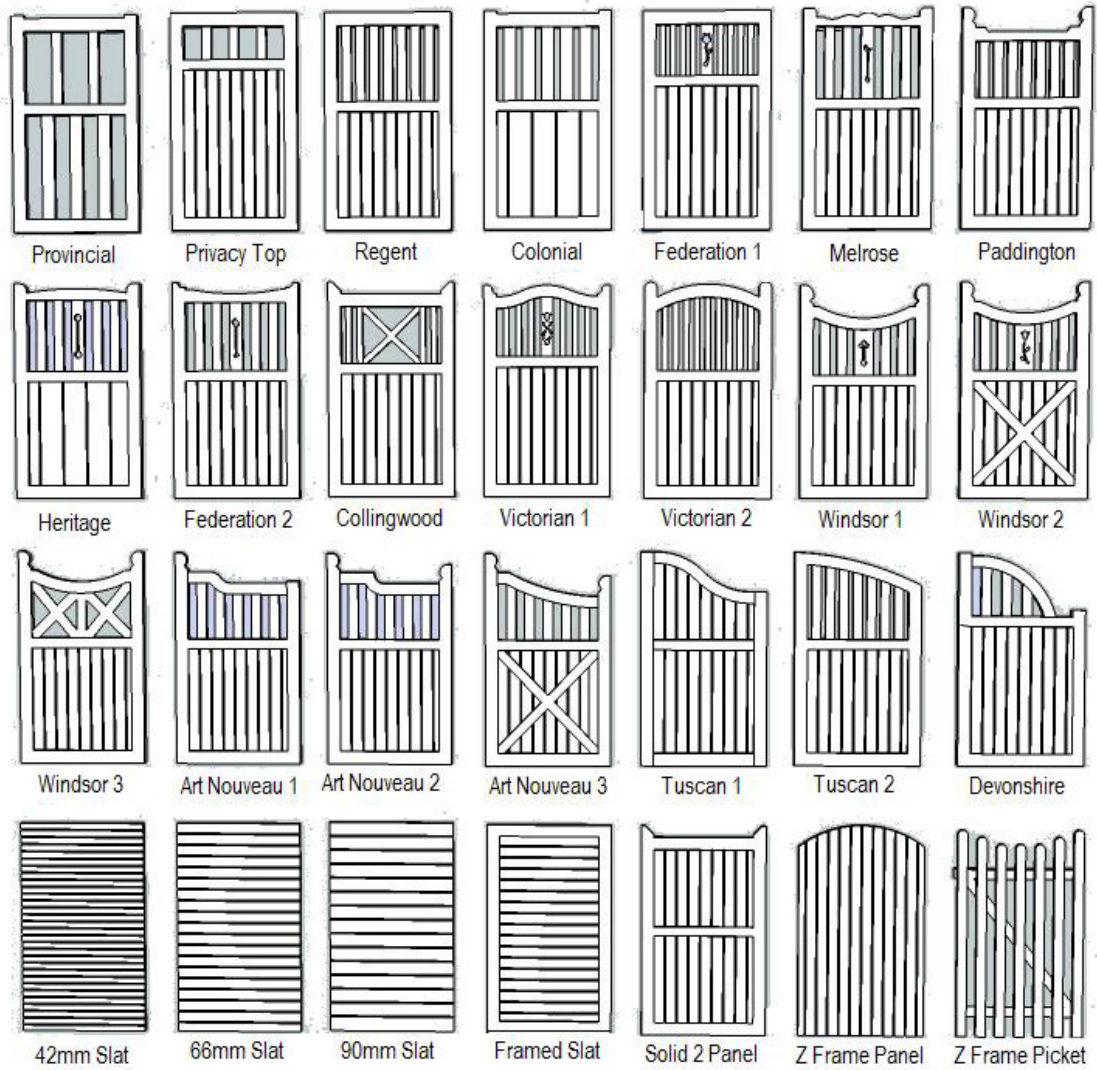

Bottom of gate to be 40mm above ground

Width of gate to be 16mm less than opening
